

About the Rhode Island Injury Community Planning Group

The Rhode Island Injury Community Planning Group (ICPG) is a group of professionals representing a broad range of agencies and organizations concerned with building Rhode Island's capacity to address injury prevention, particularly related to falls, motor vehicle crashes and suicide. The ICPG is a partnership of the Rhode Island Department of Health and the Injury Prevention Center at Rhode Island Hospital supported with funds from the U.S. Centers for Disease Control and Prevention (CDC).

ICPG Mission:

The ICPG supports injury prevention with science, collaboration, and resources to implement priority injury prevention recommendations identified in the Rhode Island Injury Prevention Plan.

ICPG Vision:

A Rhode Island in which all injury prevention partners support residents to be safe and injury-free in their communities.

ICPG Goals:

- To reduce injuries and deaths related to falls, motor vehicle crashes and suicide

ICPG Membership:

The ICPG Steering Committee meets monthly to provide guidance and direction to state injury prevention efforts. This group consists of representatives from the following organizations:

- RI Department of Health
- Injury Prevention Center at Rhode Island Hospital
- URI College of Nursing
- The Providence Center
- Capital City Community Centers
- AAA Southern New England

Motor vehicle crash, fall and suicide task forces convened by the Department of Health in 2003 to determine priorities and strategies for preventing injuries also support the ICPG. Task Force members include business insurers, public and private agencies, hospitals, community-based organizations, colleges and universities, and other partners concerned with making Rhode Island a safer state.
